PROOF OF CONCEPT EXERCISE

Prolifics Testing offers the following free Test Automation trial and demonstration services:

- A Free Test Automation Proof of Concept exercise and ROI Business Case on your chosen application (Web, Desktop or Mobile)
- Automation of a sample of Test Cases in your environment by our Cloud-based Quality Fusion platform
- Demonstration of “Day One” Automation for your application

The Demonstration will include:

- Creating an Automated Test without using a single line of code – end to end
- Executing the Test using a CI/CD approach or via Containers
- Displaying test execution results in the Dashboard
- Demonstrating AI capabilities for analytics – based on available data
- Showing how easy it is to update an Automated Test with Self-Healing capabilities

We will then present the ROI Business Case based on the identified scope of manual regression tests, costs for Automation vs costs of Manual Testing, and other inputs. The Business Case will propose how quickly you will achieve ROI on Test Automation.

Please contact Faz Ahmad, Business Development Manager, on faz.ahmad@prolifics-testing.com or +44 (0) 7961 688 773 for more details and to schedule your free trial and demonstration services.
